Joist

**Section Detail:  
 Skewed Installation using (V.P.A) and Angle Adaptor**

The Variable Pitch Adaptor (V.P.A.) allows for the installation of the tube to be skewed up to 10 degrees towards the North, East or West.  
 Roof framing may require the addition of an Angle Adaptor (ST250STAA) to allow the tube to be skewed a greater angle. (NB. Sloping the tube towards the South greatly reduces its effectiveness.)

- Skytube Diffuser  
Colour = Translucent,  
Leadlight Effect = 4x Designs (See Skytube Brochure)
- Ceiling Ring  
Standard Colour = White  
Other Finishes = Chrome or Gold Effect

**Specification:**
